

Carbon and Renewable Energy CPD Training Courses

Keeping up with the changes in the sustainability, renewable energy and carbon solutions sector can be time consuming. Many professional bodies require you to undergo continuous professional development to maintain your accreditation.

Together [RS Renewables](#) and [BFC Solutions](#) offer a wide range of training courses to help keep you on top of your CPD requirements and up to date with the latest developments in the renewable energy and carbon management markets.

The course are available as standalone modules each lasting approximately 1 hour. All courses can be delivered at your premises in groups of up to 12 people. Other locations throughout the UK are available.

We can recommend route maps for areas of specialisation to help you achieve your training goals.

Training courses include full supporting material. RS Renewables Ltd and BFC Solutions Ltd reserve the right to withdraw, change, and modify courses and their content in line with their policy of continuous improvement and market requirements.
